HEALTHCARE INSTITUTIONS

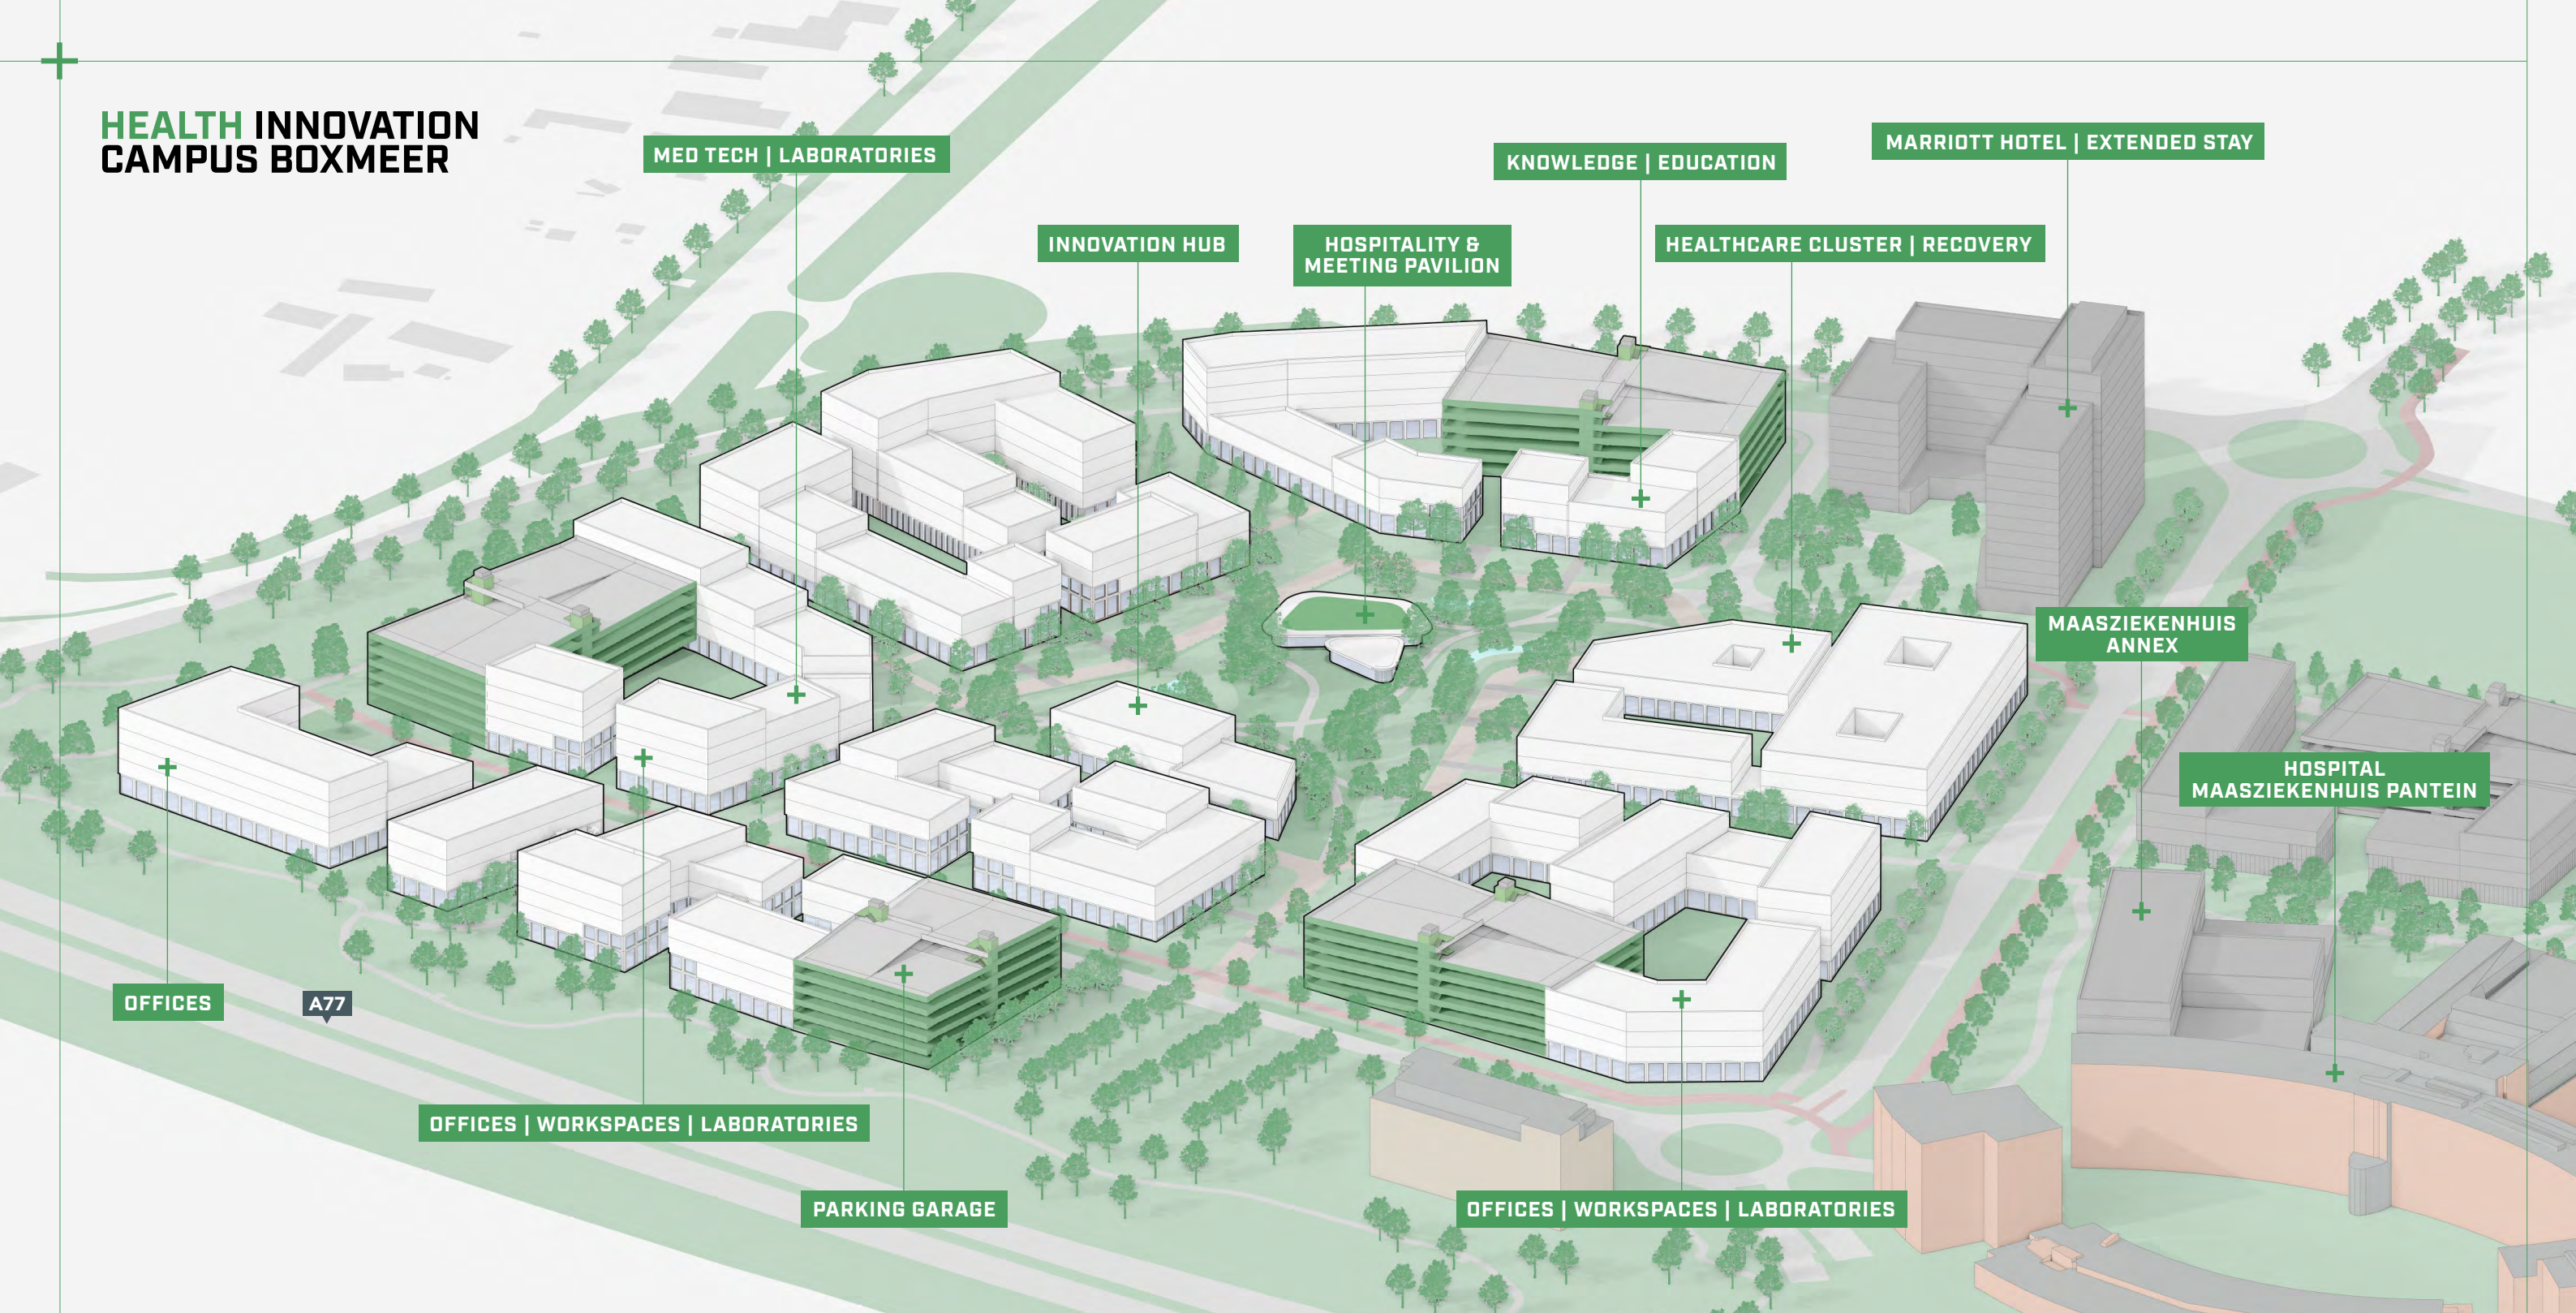

Smart innovation, sustainable growth

The future of healthcare is shaped at Health Innovation Campus Boxmeer. Here, we unite companies, healthcare institutions, and knowledge institutes to address significant global health challenges. By integrating knowledge, technology, and practical experience, we create groundbreaking solutions with tangible impact.

SHAPING FUTURE HEALTHCARE

**HEALTH INNOVATION
CAMPUS BOXMEER**

Why choose Health Innovation Campus Boxmeer?

Health innovation starts here

At Health Innovation Campus Boxmeer (HICB), healthcare institutions collaborate directly with companies and knowledge institutes to address pressing healthcare challenges. Whether in digital healthcare, medical devices, or nutrition solutions, Health Innovation Campus Boxmeer provides the knowledge, networks, and facilities needed to accelerate healthcare innovation.

+ Integrating healthcare and R&D

Innovation drives the greatest impact when research seamlessly integrates with clinical practice. HICB offers healthcare providers and researchers a shared environment to rapidly test, validate, and implement new technologies and treatment methodologies.

Accelerated innovation cycles

At HICB, you can directly test and validate new technologies in clinical settings, facilitating quick access to patients and healthcare professionals.

Cost-effective innovation through collaboration

Collaborating with businesses and knowledge institutions means sharing knowledge and significantly reducing the overall cost of innovation.

+ Technology serving healthcare professionals and patients

Innovation is not a goal in itself, but a means to make healthcare more accessible, efficient, and patient-centered. HICB provides access to cutting-edge technological solutions and supports healthcare providers in their implementation.

From innovation to practical application

HICB facilitates testing environments and cooperative projects to quickly translate innovations into usable healthcare solutions.

Intelligent use of AI

Technologies such as artificial intelligence and robotics are employed at HICB to assist healthcare professionals with data management and workload reduction.

+ Supportive facilities for advanced healthcare

Healthcare institutions continuously seek innovative housing solutions for care delivery, patients, clients, and staff. At HICB, you will find modern, sustainable buildings designed with flexibility in mind, combining sustainability and well-being to enhance both care quality and workplace satisfaction.

Sustainable and future-proof

HICB is not just sustainable; it's specifically built for future needs. The campus provides a healthy working environment where healthcare professionals, researchers, and businesses can collaborate and thrive. Green spaces, circular materials, and energy-efficient buildings reduce the ecological footprint while creating a healthier workplace.

Accommodation tailored for patients and special groups

Health Innovation Campus Boxmeer provides facilities suitable for primary, secondary, and tertiary healthcare, alongside accommodation for rehabilitation patients.

Short and extended stays for professionals

The dual-branded Marriott International hotel on-campus offers convenient accommodation for employees, students, and family visits for both short-term and extended periods.

+ Collaboration at the core

In healthcare, collaboration is essential, not optional. Healthcare institutions at Health Innovation Campus Boxmeer benefit from a dedicated environment focused on innovation and partnerships.

Building future-proof healthcare together

HICB promotes collaboration between healthcare providers, companies, and scientists to structurally integrate preventive healthcare measures into practice.

Direct access to laboratories and hospitals

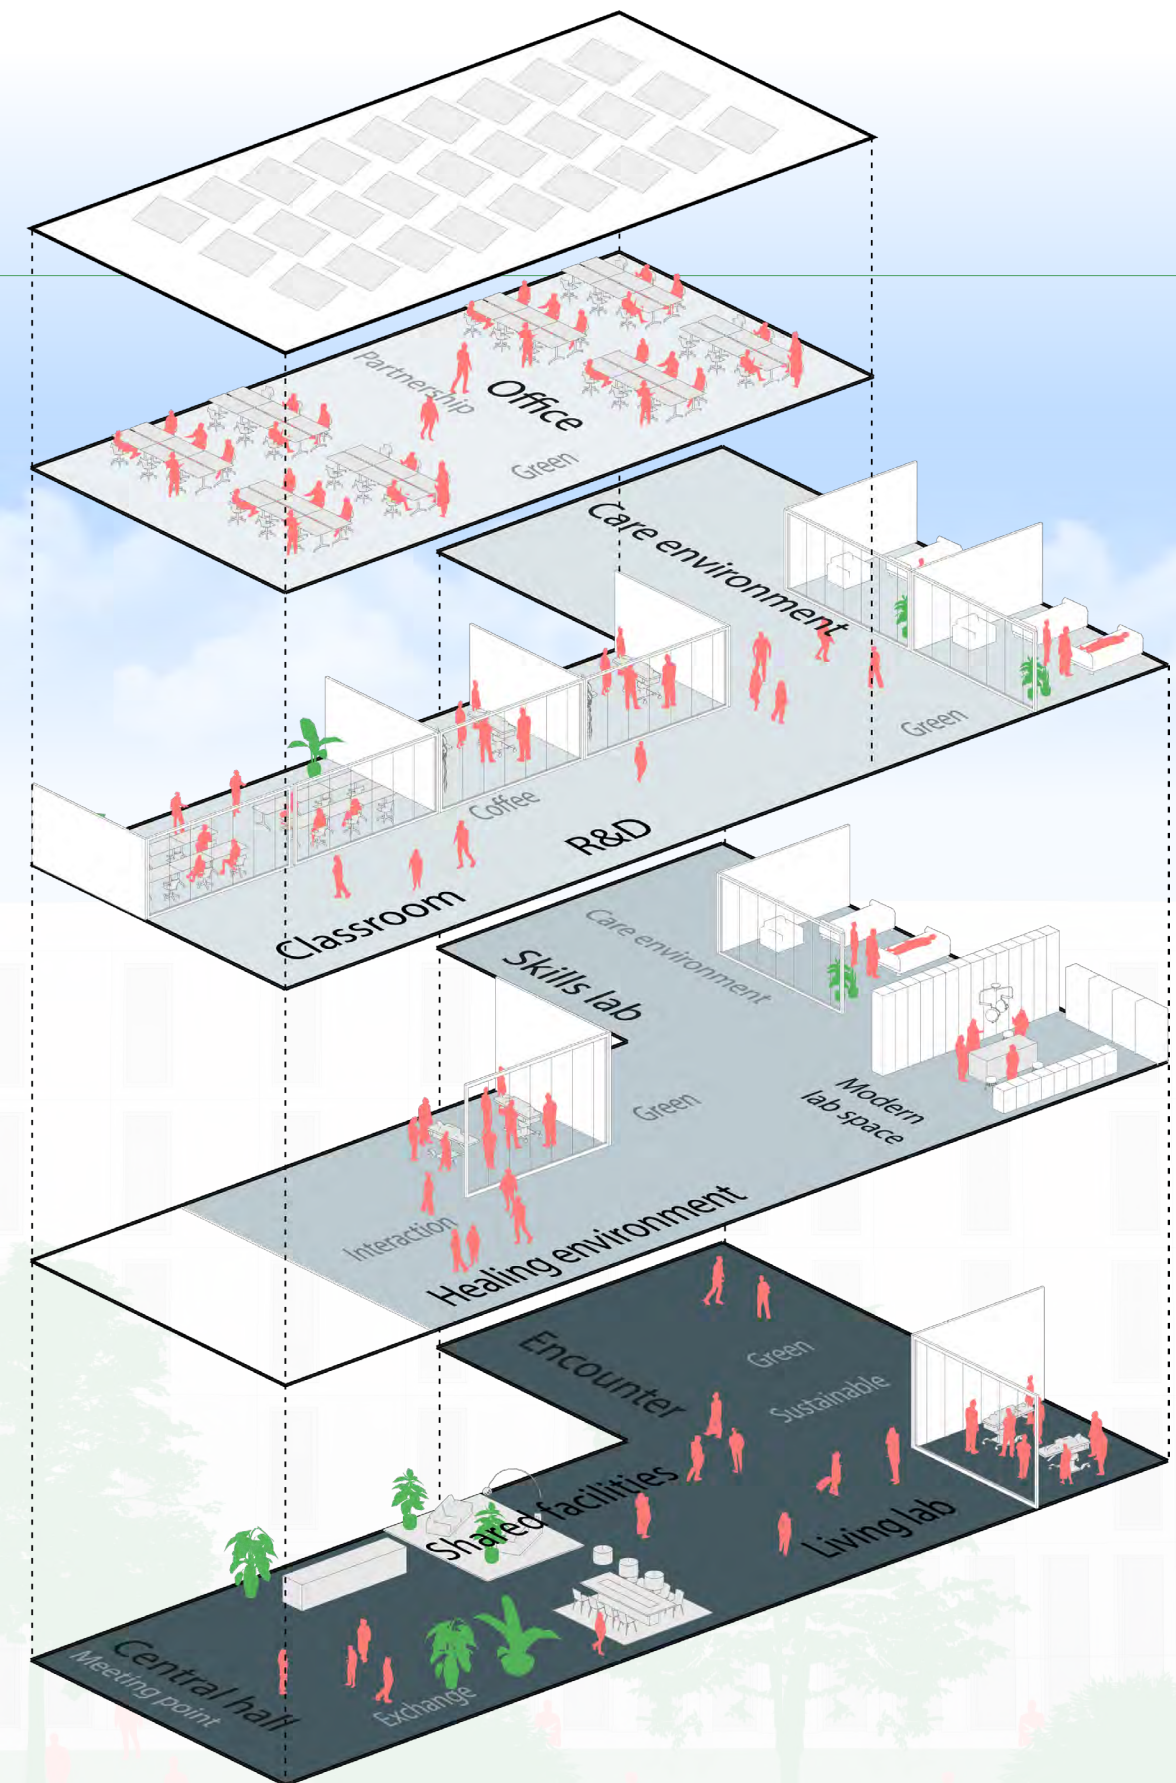

Close proximity and partnerships with healthcare providers, including on-campus hospital Maasziekenhuis Pantein, streamline joint healthcare development and research.

Resilience through collaboration

Collective innovation and economies of scale enable healthcare institutions at HICB to operate more efficiently, buffering them from economic and political pressures.

An **inspiring environment**
designed for collaboration
and knowledge sharing to fuel
healthcare innovation.

Better care starts with **smart choices**.
Health Innovation Campus Boxmeer
helps care providers **move forward**.
